

## G-FORCE DRIVE BELTS

### G-FORCE C12 DRIVE BELTS

- The first CVT belt utilizing a carbon tensile cord, combining minimal stretch with extraordinary strength
- Carbon tensile cords are bonded with aramid fiber-loaded rubber with a specially formulated adhesion gum; this results in increased side-load resistance, preventing belt distortion and edge-cord pullout
- Gain optimal power transmission for faster acceleration, improved throttle response and consistent shifting performance

### G-FORCE STANDARD DRIVE BELTS

- OEM-constructed drop-in belt with no clutching adjustments
- Viability testing completed to match shift curves
- Dynamometer testing proves G-Force belts outlast other high-performance belts by as much as five times
- Advanced aramid tensile cords and reinforced fiber-loaded undercord are used in construction for durability and dependability
- Proprietary measuring technology ensures exact fit
- Construction utilizes double- and single-cog configurations to match OEM belt designs maximizing heat control and flexibility

## G-FORCE DRIVE BELT FOR KAWASAKI MULE PRO 15-20

- OEM-constructed drop-in belt with no clutching adjustments
- Viability testing completed to match shift curves
- Dynamometer testing proves G-Force belt outlast other high-performance belts by as much as five times
- Advanced aramid tensile cords and reinforced fiber-loaded undercord are used in construction for durability and dependability

- Flat-top or top-cog construction; see chart below
- Proprietary measuring technology ensures exact fit
- Construction utilizes double- and single-cog configurations to match OEM belt designs maximizing heat control and flexibility

TOP OUTSIDE WIDTH X LENGTH	STYLE	GATES PART #	OEM PART #	PART #
