## AFAM Kettingkits

AFAM biedt een breed gamma kettingkits aan. Een kit met ketting en tandwielen van topkwaliteit garandeert een buitengewoon lange levensduur voor alle motorfietsen, bromfietsen en quads.

AFAM biedt eveneens een zeer breed gamma tandwielen aan wat toelaat de overbrengingsverhouding aan te passen aan de behoeften.

AFAM garandeert u dezelfde kwaliteit ketting en tandwielen als deze die ze levert aan fabriekspiloten.

### Kettingkitconfigurator

- 1- Vul de referentie van de kettingkit in (standaard overbrenging van het voertuig)
- 2- Kies een gepersonaliseerde overbrenging (variabel aantal tanden voor- en achterandwiel)
- 3- De lengte van de corresponderende ketting wordt automatisch berekend.
- 4- Profiteer van een enkel tarief onafhankelijk van de overbrengingsverhouding.
