### **GPR V4s Stabilizer Kits**

The GPR v4S, the fourth generation of the GPR sport bike application. This is specifically designed for sport and street bikes and uses our patented pin-less mounting system. Slim design and large visible adjustment dial allows you to adjust the damping settings while you ride. Vital in changing conditions and temperatures. Since its debut in 2007, this kit has become a favorite of amateur and professional road racers worldwide. The Harley Davidson applications use the same V4S steering damper and include a beautifully machined billet top-clamp.
