

MAGURA

## Master cylinders

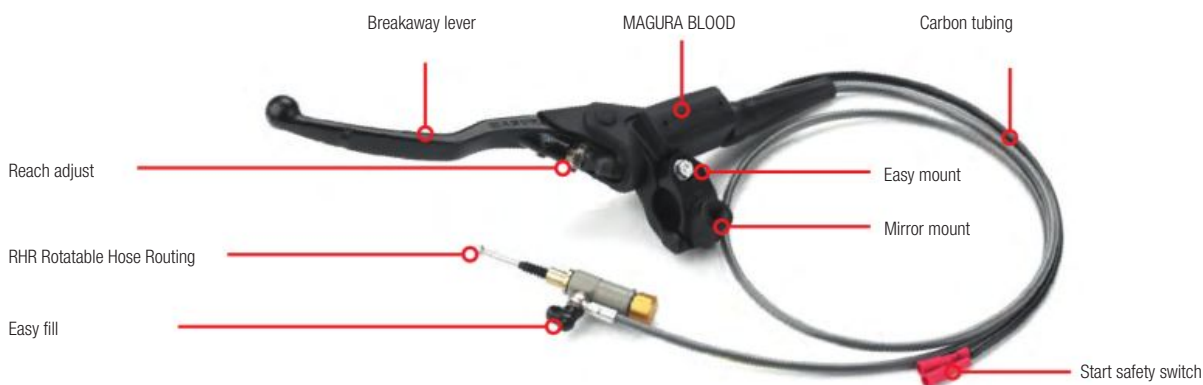

### MAGURA 167 clutch system

The brand new hydraulic clutch system supplements MAGURA's HYMEC product family and extends the technical capabilities HYMEC system.

The HYMEC Street is simply a fantastic hydraulic retrofit clutch system that is guaranteed to improve overall bike performance. Street motorcyclists can now get away with applying a lot less pressure than with the standard clutch. Depending on riding style, this can make for huge benefits in terms of riding comfort and control.

HYMEC Street noticeably optimises the performance of street motorcycles and is simply super comfortable...

- Pre-mounted forged lever with improved lever ergonomics,
- Filled and delivered ready to install
- Easy to install, detailed instructions included
- Lever reach adjustment.
- Filled with non-toxic MAGURA Blood

Delivered with or without decompressor according to models.  
Nickel color, except for Special Blade models (black)
