Accessories	56-57

58 CONTACT

FEATURES

SMPro PLATINUM RIM

Made from 7050- T6 aluminium. The strongest, lightest rim on the market.

BULLDOG SPOKES

Extra strong, high tensile stainless steel spokes.

SMPro HUBS

Machined from billet aluminium come complete with bearings, seals and spacers.

ASSEMBLY

All wheels are assembled by hand by our skilled technicians.

NIPPLES

SMPro Platinum wheels are built with coloured aluminium nipples to give the lightest combination, or alternatively can be built with nickel plated steel nipples for a more affordable option.

WHEEL PART NUMBERS

A wheel is comprised of a combination of part numbers which is formatted as follows:

Hub Part Number. **Hub Colour**. Rim Size. **Rim Colour**. **Nipple Colour**.
So for example the front wheel above would be: **SP185. 04. 80. 01. 04.**

M/X & Adventure	Junior MX	Supersmoto	Junior Supersmoto	Speedway & Grasstrack	Flat Track & Café Racer
80 / 21x1.60	60 / 19x1.60	12 / 16x3.50	92 / 12x2.15	91 / 23x1.60	81 / 19x2.15
81 / 19x2.15	61 / 16x1.85	70 / 16.5x3.50	93 / 12x2.50	81 / 19x2.15	45 / 19x2.50
82 / 19x1.85	62 / 17x1.40	71 / 17x3.50	23 / 17x2.50	57 / 22x1.85	46 / 19x3.00
84 / 18x2.15	63 / 14x1.60	72 / 17x4.25	24 / 17x3.00	56 / 22x1.60	47 / 19x3.50
85 / 18x1.85	64 / 12x1.60	73 / 17x5.00	71 / 17x3.50		34 / 18x2.50
51 / 21x2.15	65 / 10x1.60	28 / 17x5.50			35 / 18x3.00
83 / 21x1.85					36 / 18x3.50
45 / 19x2.50					23 / 17x2.50
37 / 18x4.25					24 / 17x3.00
28 / 17x5.50					71 / 17x3.50

COLOUR OPTIONS AVAILABLE

At SMP Pro we believe in the philosophy of your wheels, your way so have numerous colour options to allow you to create wheels to your own personal choice – add any of these colour codes onto your hub, rim, nipple or spoke as previously explained on page 4 wheel part numbers.

HUBS

All stock hub colours are shown in this brochure in gloss according to which model you have. Alternative colours are available as per the colour chart below (at an extra cost).

RIMS

Senior M/X rims are stocked in Matte Silver, Black

and Gold or Gloss Black and Gold, alternative colours can be supplied to order as per the colour chart below (Surcharges apply). Junior M/X and Supermoto Rims are stocked in Gloss Silver, Black and Gold, likewise alternative colours can be supplied to order (Surcharges apply).

NIPPLES

Alloy nipples are available in gloss colours only 00-08 and 11 from the colour chart below.

SPOKES

Chemically blackened spokes are Matte Black but all other powdercoated coloured spokes will be Gloss finish as per the colour chart below.

GLOSS

00 Gloss Silver	01 Gloss Black	02 Gloss Gold	03 Gloss Red	04 Gloss Blue	05 Gloss Green
06 Gloss Orange	07 Gloss Yellow	08 Gloss Purple	09 Gloss Magnesium	10 Gloss Titanium	11 Gloss Pink

MATTE

50 Matte Silver	51 Matte Black	52 Matte Gold	53 Matte Red	54 Matte Blue	55 Matte Green
56 Matte Orange	57 Matte Yellow	58 Matte Purple	59 Matte Magnesium	60 Matte Titanium	61 Matte Pink

ELECTRIC BIKE WHEELS

Our SMPro Electric Bike Hubs have been designed to fit the Kuberg Electric Bikes, but should fit the majority of
Electric bike manufacturers. These Electric Bike hubs are substantially stronger than the Original hubs and allow use
of stronger spokes and lacing pattern creating a far stronger wheel suitable for race use.

Electric Bike Wheels	Year	Position	Rim Size	Wheel Part Number	Hub Colours Stocked
Kuberg	All	Front	14x1.60	SP903.XX.63.XX.XX.	Black only

		Rear	17x5.00	SP717.XX.73.XX.XX				

To convert your wheels to tubeless and allow better range of Tubeless tyres please see page 49 to 51 Tubeless conversions.

CUSTOM WHEELS FINISHES

In addition to the colours listed in this brochure you can also use your imagination and choose to customise your wheels with various colour combinations; we can add Camo or fade two colours onto your rims.

We can assemble these on to any of the hubs listed in this brochure and can even mix the colours of the spokes.

We can build Dual Colour Camo or Fade rim with any combination of nipple colours – please note

that for Dual Colour rims the primary colour must be black due to the process.

White rims are available in powdercoated finish only as it is not possible to anodise White.

Custom builds are extra and are not available from stock so for more information call us on 01675 462 264. These options take 3-4 weeks for delivery as they are anodised to order.

REPLACEMENT RIMS

The SMPro Platinum rim is the strongest and lightest aftermarket rim available to date. 18 months in testing and development the SMPro Platinum rim is made from a new specially formulated high grade of 7050 Series Aluminium.

The Platinum rim has been designed, tested and manufactured to withstand the rigours and demands of today’s performance motorcycles and riding styles, whilst reducing the weight of the rim to reduce the unsprung weight of the wheel. The SMPro Platinum rim is the new benchmark of aftermarket MX rims.

SMPro Platinum rims are available in Factory Matte and Gloss in a wide variety of colours (see page 4) and feature a stylish etched logo to showcase the Platinum rim. Platinum rims are available from 18”-21” and can be fitted to SMPro or Original Equipment Manufacturer Hubs (other brands available on request).

HARDNESS TEST

SMPro Platinum IS

1.5% harder than the Excel A60 Rim
(Based on 19*2.15 36H)

Hardness test conducted by an independent authority

WEIGHT

SMPro Platinum IS

150g lighter than the Excel A60 Rim
(Based on 19*2.15 36H)

Spoke nipples can also be supplied with your spokes in Nickel plated steel or brass and in Aluminium with a hard finish. The Aluminium Nipples are both weight saving and can be provided in a range of colours (see page 4).

NICKEL PLATED BRASS/STEEL NIPPLES

Description	Nipple Part Number
7 Gaugex7.60mm	XX.07.300
8 Gaugex7.60mm	XX.08.300
9 Gaugex6.40mm	XX.09.250
9 Gaugex7mm	XX.09.275
9 Gaugex7.60mm	XX.09.300
10 Gaugex6.40mm	XX.10.250
10 Gaugex7mm	XX.10.275
10 Gaugex7.60mm	XX.10.300

For Nickel Plated Brass replace XX with NB and Nickel Plated Steel with NS.

ALUMINIUM NIPPLES

Description	Nipple Part Number
7 Gaugex8.25mm	NA.07.325.XX
8 Gaugex7.60mm	NA.08.300.XX
8 Gaugex8.25mm	NA.08.325.XX
9 Gaugex7.60mm	NA.09.300.XX
9 Gaugex8.25mm	NA.09.325.XX
10 Gaugex7.60mm	NA.10.300.XX

For Aluminium Nipples replace XX for choice of colour nipple. See page 5 for choice of colours.

SMPRO SPOKE FITMENTS

All our 'Bulldog' spokes are manufactured from High Tensile Stainless Steel and for an extra cost can be powdercoated in a colour of your choice or chemically blacked.

Aluminium nipples can be included to gain the strongest and lightest wheel combination and can also be hard anodised to a colour of your choice or can be Nickel plated Steel or Brass.

(See page 5 for all colours options available).

Speedway Senior	N/A	19"	36	Rear	SS.44.55.902	

Spoke nipples can also be supplied with your spokes in Nickel plated steel or brass and in Aluminium with a hard finish. The Aluminium Nipples are both weight saving and can be provided in a range of colours (see page 4).

NICKEL PLATED BRASS/STEEL NIPPLES

Description	Nipple Part Number
7 Gauge x 7.60mm	XX.07.300
8 Gauge x 7.60mm	XX.08.300
9 Gauge x 6.40mm	XX.09.250
9 Gauge x 7mm	XX.09.275
9 Gauge x 7.60mm	XX.09.300
10 Gauge x 6.40mm	XX.10.250
10 Gauge x 7mm	XX.10.275
10 Gauge x 7.60mm	XX.10.300

For Nickel Plated Brass replace XX with NB and Nickel Plated Steel with NS.

ALUMINIUM NIPPLES

Description	Nipple Part Number
7 Gauge x 8.25mm	NA.07.325.XX.
8 Gauge x 7.60mm	NA.08.300.XX.
8 Gauge x 8.25mm	NA.08.325.XX.
9 Gauge x 7.60mm	NA.09.300.XX.
9 Gauge x 8.25mm	NA.09.325.XX.
10 Gauge x 7.60mm	NA.10.300.XX.

For Aluminium Nipples replace XX for choice of colour nipple. See page 5 for choice of colours.

SMPRO BRAKE DISCS

These laser cut and diamond parallel surface ground brake discs ensure perfect flatness.

They are manufactured from specifically blended 410 grade Stainless Steel. The design increases the temperature resistance for superior toughness. The specifically designed cooling slots allow for the ultimate braking experience.

Our Brake Disc range covers Front and Rear wheel discs for all the leading Honda, Kawasaki, Suzuki, Yamaha, KTM and Husqvarna offroad motorcycles.

Standard Brake Disc.

BRAKE DISC GUARD SPACER

Disc Guard Spacer Information:

Now available - The new SMPro Disc Guard Spacer allows you to mount your Acerbis, KTM Powerparts or 'other' disc guard cover to your SMPro Wheels with SMPro Hubs.

The SMPro Spacer comes complete with the washers and bolts to fit your Disc guard directly onto, hassle free. Please note, the mounting kit for the SMPro Hub will ONLY work with the SMPro Hub, whereas the mounting kit from Acerbis (Or KTM) is designed to work with ONLY the OEM Hub and NOT the SMPro Hub.

They are available to order and in stock for most current fitments. For any further information on our Disc Guard Spacer please get in touch and a member of our team will be more than willing to help you.'

Please note, the SMPro mounting kit does not work with 'all' brands of disc guard covers.

SUPERMOTO DISC COMBOS

Supermoto Disc and Mounting Bracket & Moto-Master Flame Supermoto 'Street' Disc.

Ideal solution for riders who want a race orientated performance without switching to a full Supermoto racing set up.

320mm floating rotor disc designed for use with OEM Supermoto racing brake caliper. Mounting Bracket included.

Get the Flame advantage

- Maximum control- flame shape ensures constant contact with brake disc and pad for smooth and predictable braking
- Reduced brake pad wearflame designs ensures constant support for brake pads, reducing tilt under high pressure.
- Cooling and reduced weight
- Superior finish, reduced eroding
 - 4mm thick, lightweight stainless steel floater attachments, resulting in maximum strength and durability
 - available in 300mm and 320mm

Supermoto

Available to order - we are able to supply complete 320mm Front Disc conversion kits for 'most' common moto bikes. This allows us to really offer the complete super moto package along with wheels, and tyres. The kit includes a 320mm Floating front disc, and suitable billet aluminium mounting bracket to work with your OEM caliper. This package gives you the best solution for race orientated performance without the costs!

Please speak to a member of our team for more information on the disc set up you require.

AIRTIGHT SYSTEM

Central Wheel “Airtight” Tubeless system

Adapt your wire spoked wheels to accept tubeless tyres using our revolutionary “Airtight” Tubeless system. Ideal for Supermoto and Adventure bike wheels, also custom bike applications

The CWC “Airtight” system can be fitted onto any spoked wheel rim that has a safety hump (See images) allowing use of tubeless tyres.

Each wheel is custom fit with the “Airtight” band which is then vulcanised to form an airtight seal around every spoke nipple, creating an airtight environment suitable for fitment of a tubeless tyre.

Benefits:

- Reduced weight through not needing a tube
- Stops possible moisture seeping into the tyre well through the spoke nipples which can cause mild corrosion
- Allows better range of tyre with Tubeless option
- Patch kits available to allow for spoke replacement

Note that care should be taken when fitting tyres not to dislodge or tear the “Airtight band” suitable for modern day tyre machines.

Rim Safety Hump

BART FACTORY'S BART TUBELESS SYSTEM

This exclusive system seals any spoke rim allowing a spoke wheel to wear a tubeless tyre. It uses a polymer rubber band tailor-made for each wheel- granting the maximum air tightness.

Traditionally, spoked wheels and tubeless tyres do not merge. BARTubeless is the first system providing a cost effective and reliable transformation of a wired spoke rim into a tubeless one. This combines characteristics of both technologies- elasticity, resilience, versatility with reduced weight and friction.

Benefits:

- Lightweight
- Protects rim from oxidation- increasing durability and reducing maintenance
- Compatible with all motorbikes and rims with HUMPS
- Easy repair and spoke replacement

NUETECH TUBLISS SYSTEM

Tubliss is a tubeless system for motocross and enduro competition. It employs a dual Pressure Chamber system that replaces the conventional tube with a high pressure rim protecting inner bladder that acts as a 360degree rim lock that seals the tyre around the circumference of the rim.

This system allows for tyres to run on lower pressures than when using an inner tube, resulting in increased traction.

The inner bladder is inflated to 100psi locking the tyre to the rim and also acting as a rim protector. the outer chamber can be ran from 0 psi upwards depending on the ground conditions, this system also allows you to quickly fix punctures with a plug.

Benefits of the Nuetech's Tubliss system:

- The inner bladder, when inflated to 100psi, locks the tyre to the rim- acting as a rim protector.
- The outer chamber can be ran from 0psi upwards dependent on ground conditions- increasing ground traction
- Lighter than other HD or UHD tubes. improving acceleration, breaking and handling
- Fix punctures quickly with a plug!

Available in:

- 21 Gen 2 Dual air chamber 1.60
- 18 Gen 2 Dual air chamber 1.85-2.15
- 19 Gen Dual air chamber 1.85-2.15

NUETECH NITROMOUSSE

Nitromousse combines a high level concentration of Nitrogen into an incredibly tough micro-matrix of proprietary elastomers. This eliminates the dead feel and provides a much more lively, lighter and traction enhanced feel from the very first ride, as they do not need a break-in period.

Additionally, the proprietary formula and manufacturing process provides a mousse that will last up to twice as long making it very cost effective for you, the rider.

- Nitromousse provides a much more progressive, predictable and secure feel from the very first ride that will never leave you stuck with a flat!
- Nitromousse contains a high concentration of Nitrogen, which gives it a much plusher, pneumatic feel, eliminating the dreaded 'Dead' feel.
- The Nitrogen formula gives the Nitromousse a low pressure predictable ride, resisting impacts and increasing bump absorption.
- The Nitromousse compounds allow for a more lively progressive ride eliminating deflection and providing a lighter feel in motion.

- Nitromousse does not need a break-in period and has been designed and tested to perform consistently in temperature ranges from 0-38+ degrees Celsius.
- Nitromousse's performance and durability all come at an extremely attractive price.
- 21" fronts and 18" rears are available in standard format as well as a soft compound option to meet the needs of extreme enduro riders. This equates to a feel of approximately 0.2-0.3 bar less than the standard Nitromousse.

Part Number	General Tyre Fitment
NM21-220	Fits most tyres sized: 80/100-21 & 90/90-21*
NM21-235	Fits most tyres sized: 90/100-21*

*Please refer to the Nitro mousse comprehensive fitment guide at www.smprouk.co.uk to find the fitment for your individual tyre!

TYRES

Dunlop GPR-300 Lightweight Sport Tyre

Dunlop's latest creation in lightweight sports tyres is the GPR-300 with a new pattern designed to deliver safe performance in all street conditions. With a light and flexible construction, the tyre gives smooth predictable handling whilst all the while giving good stability. The new silica-blend compound improves both mileage and all important wet weather grip.

Dunlop delivers this all to you, combined with a seriously competitive price from SMPro! Please look at the size line up to find the size for your bike, or contact the sales team to talk through your options.

Dunlop GPR-300, a perfect addition to your SMPro wheels.

TYRES

Pirelli Scorpion MX32 Mid Soft

Pirelli's World Championship winning tyre is available from SMPPro!

Featuring V-shaped blocks to improve braking stability and cornering side grip, which gives high performance consistency in severe racing conditions. The MX32 also has increased heat resistance for racing conditions coupled with reduced weight, without compromising on stability. Built with a special polyester carcass to give the ultimate in cornering performance.

The MX32 is available in standard & Mini-Cross sizes. Please see the size line up for your bike or call the sales team on 01675 462264

TYRES

MITAS E-07/ E-07 + Adventure-Sport Tyre

The Mitas E-07 is the true 50/50 tyre for Adventure riders. Due to its hardwearing compound and optimal performance on road as well as off road, the E-07 is a hugely popular choice with Adventure-sport riders around the globe.

The E-07 rear has been modified with an improved tread design to give sharper, more precise handling whilst still retain the classic attributes of the original pattern. The tread pattern on the rear (E-07+) has slightly wider tread grooves to better expel sand, mud and stones and the tyre is also made in a special 'Dakar' version suitable for higher loads, longer adventure trips and extreme conditions. The E-07/ E-07+ is available in all the main sizes for

adventure bikes, please see the size line up for the correct fitment for your bike or call the sales team on 01675 462264 to discuss your needs.
